HBIS GROUP Serbia Iron & Steel IIC Belgrade

Declaration on the conformity of radiation level of steel products

By this statement, HBIS GROUP Serbia Iron & Steel d.o.o. Beograd confirms that dosiometric control is performed and guarantees that measured values of alpha and beta / gamma surface contamination of measured goods are lower than the prescribed limits values for the surface of the article that is intended for general use: for alpha emitters – less than $4\text{Bq} / 100\text{cm}^2$ and for beta emitters – less than $40\text{Bq} / 100\text{cm}^2$.
